

**Investing in South Africa's Future,
With Measurable Impact.**

Who we are

Tshikululu Social Investments is a leading South African social impact advisory, fund manager, and strategic integrator. For nearly three decades we have partnered with leading corporates, philanthropies, and foundations to deliver complex, multi-stakeholder social investment funds and programmes.

Our cross-functional expertise, track record, and end-to-end capability turn your social investment into one ecosystem to create measurable, lasting change.

How we do it

Our service offerings are built on these specialist capabilities, available either independently or as part of a full engagement. We support every stage of the social investment journey, from insight to implementation to impact.

Monitoring, evaluation, research and learning: Impact measurement, baseline assessments, stakeholder consultations, and specialist research to support transparent governance and accountability.

Strategy and advisory: Customised impact strategies and advisory services across a range of vehicles, from PBO Trusts to impact funds, grounded in sector expertise.

Programme design, delivery and oversight: Including partner selection, compliance, risk management, financial oversight, and delivery against strategic milestones.

Fund management and governance: Financial due diligence and regulatory compliance for trusts and funds to ensure transparency and accountability.

The Tshikululu Trust: A unique vehicle that allows multiple funders to pool resources into a single, managed fund. It increases efficiency, reduces administrative burden, and amplifies impact.

Our approach

Our holistic approach integrates key social impact levers like CSI, ESD, SED and ESG into a single, purpose-driven ecosystem. We map what exists, identify what's missing and design programmes where each element reinforces the next. We call this end-to-end offering the Social Impact Maximiser. It's the integrated framework that underpins everything we do, from trust and fund management to advisory services.

Our competition stops at advice. We're there for every step of the journey. We own the "how" that turns your social investment into change that lasts.

Why clients choose us

Clarity

A single, integrated view of all your social investment levers including CSI, ESD and SED. Less admin, more value for business and society.

Credibility

very rand is managed ethically and transparently with audit-ready results.

Confidence

Impact measured, verified and communicated, not just claimed. Social investment that achieves stronger B-BBEE results or maximises Section 18A benefits.

Scale

Design and delivery of large-scale programmes through a trusted network of partners and a trusted fund management platform.

Some of our hero clients

Client Testimonials

“Tshikululu is knowledgeable about trusts, management of endowments, financial advice and recommended programmes that close gaps in society, are sustainable and aligned to the UN development goals.”

South Deep Chairperson

“Excellent professionalism, turn around time on difficult issues, excellent knowledge of the specific aspects of the Trust and ITS beneficiaries, and protective engagement with beneficiaries.”

Discovery Foundation Trustee

“There is a great opportunity for Tshikululu to be a real leader of the philanthropy eco-system and it would be great to see this in action.”

Anglo American Foundation CEO
